

PREVENTING WIRE FRAUD

BE AWARE

You could lose your life savings to scammers

- Scammers hack into email accounts of businesses involved in real estate transaction.
- Hackers intercept the message and replace the title company account information with their own.
- Scammers may also send wire transfers requests from fake accounts that appear to be from a legitimate source.
- **Wire transfers are NOT reversible.**

PROTECT YOURSELF

- Never send private account information via unencrypted email.
- Do not click on suspicious links.
- Avoid using unsecured or Public WiFi networks.
- Do not trust the contact information in the email or click "Reply" to verify.
- Keep your virus and malware up-to-date and run regular system scans.

ALWAYS
call the
title company
before sending
a wire transfer to
confirm the
instructions.
